Download

Step 8: Entering a function key Step 9: How to disable R-BAZING. If it is so, then go to the next part. Step 10: C:\Program Files\Microsoft Office 15\root\Office16 Step 11: Inside of Office16, You should have only one folder (by default) named O16_INF (If you have another install of Office16, then you have to find the folder and its content, it depends). Step 12: Go to the folder O16_INF. You should see a file named by this name DllValidation.ini. Step 13: Open this file and you should see the information below: [DllValidation] AntiMacroList=0;0;0;1;0;0;0;0;1;0;0;0;0
